**Q:** My team is officially scheduled to play an opponent during a certain weekend as it is stated on the NCBA website, but my opponent notified us that they can't play that weekend. Are we obligated to reschedule with them?

**A:** The NCBA wants teams to honor the official schedule that is listed online. With that being said, it is your choice to either accept forfeit victories OR you can't oblige your opponent and reschedule with them only if your team has availability and it is approved by the Regional Director. The NCBA recommends that if it is any easy "fix" to reschedule with your opponent to do so. At the end of the day the NCBA wants as much baseball played. But in no way are teams obligated to reschedule with their opponents if they can't play on the weekend that is on the official NCBA schedule.

**Q:** Are we only allowed to play our three conference games against our opponent in one weekend?

**A:** No, we recommend adding at least one non-conference game to your three game conference series if at all possible. Realistically, only four games can be played (3 Conference and 1 Non-Conference) against your conference opponent in a single weekend. So, if you play your three conference series games and add a non-conference game against your conference opponent, you can knock off one of the three required non-conference games to be eligible for the playoffs (DI only), and if you play two games Saturday and two games Sunday, they can both be double-headers.

**Q:** What should I do if my opponent lists a player on their lineup card that is not on their official roster during ground rules?

**A:** If at ground rules your opponent lists a player that is not on the NCBA official roster, it is up to you at that point to notify your opponent and the umpire of this infraction. The infracting team has the opportunity to correct the mistake, but should they not correct the mistake, the game should be played under protest.
